*"We believe in the center of this new world economy, a new kind of cryptocurrency exchange will play a critical role. Moreover, a community-driven decentralized exchange will truly address the security and the complex regulatory environment." - QUANTA Whitepaper*

To bring forth the vision, the QUANTA Foundation, a non-profit organization (NGO), will be raising an ICO with the mandate to promote and nurture the growth of the network. QUANTA's development team is tasked with developing the core platform, the exchange user interface, mobile apps, and APIs. The team has decades of experience building large scale e-commerce, payment, and internet-consumer platforms. Security, speed, scalability, flexibility, and usability of the exchange platform continue to be the focus for the team.

As QUANTA team continues to nurture the platform, the QUANTA Foundation will maintain the community.

**Traders** - Provide feedback to improve the trading platform and to add new features and new apps.

**Voters** – Coin listing and delisting, roadmap & features, will be driven by the community voting process.

**Network operator** - Earn % of the trading fee based on the volume & latency of trades executed on their server.

**Coin holders** - Trading fees are distributed back to the network coin holders.

**Blockchain Developers** - Extend the platform functionality via Github PR and network upgrades.

**App Developers** - Take part in building new & interesting features for traders, and earn QUANTA coins based on installs and usage from users.
